

# CFMA's EDUCATION PROGRAMS

provide the essential learning opportunities construction financial professionals need to achieve career success and business growth

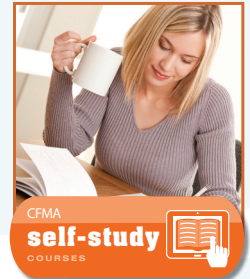

## Webinars

CFMA's Webinars are monthly online sessions with industry experts covering such diverse topics as FASB's Revenue Recognition changes, healthcare reform, construction technology, and strategic business planning. All Webinars are CPE-credited under the National Association of State Boards of Accountancy (NASBA) and **FREE** to CFMA members.

## Self-Study Courses

For financial professionals new to construction accounting, CFMA offers valuable Self-Study Courses. These programs are designed as introductory courses and do not qualify for CPE credit.

## Chapter Classroom Courses

CFMA's Chapter Classroom Courses (including courses such as *Basics of Construction Accounting*, *Construction Contracts 101*, and *Cash Management*) are live classroom presentations made available through local CFMA chapters, affiliated associations, or companies. All Chapter Classroom Courses are CPE-credited under the National Association of State Boards of Accountancy (NASBA).

## Online Courses

CFMA offers the best of Chapter Classroom Courses in an Online Course format making the education you need to get ahead in the construction industry available at your fingertips, right from the convenience of your own computer. All Online Courses are CPE-credited under the National Association of State Boards of Accountancy (NASBA) and provide course materials in digital format.

## CAN'T ATTEND A LIVE SESSION?

### On Demand Library

All CFMA Webinars and Online Courses (more than 300 recordings!) are available on demand at <http://cfma.digitellinc.com/> (note: on demand learning does not provide CPE credits).
