# Human Resources

- Position has changed
- Demands are higher
- Compliance more demanding
- Recruiting/Onboarding
- Training/LMS
- Safety

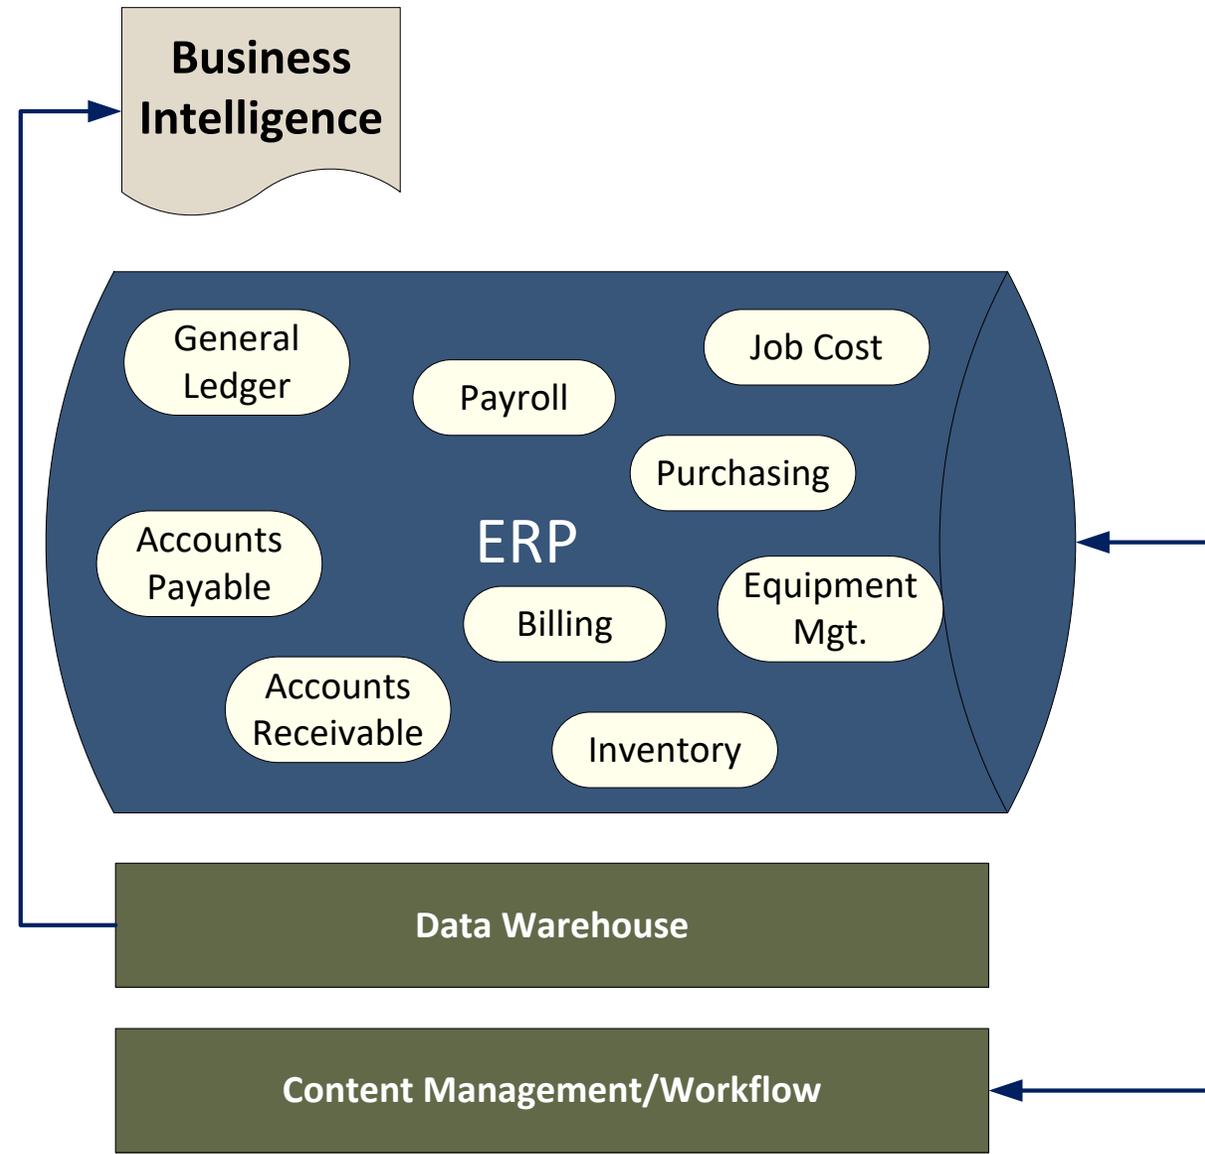

# Prefabrication

# ERP

- Several legacy systems remain
- Question whether they continue as center of the universe
- Greater use of best-in-class solutions
- Middleware being considered
- Many ERPs have been acquired
- None ready for fabrication

# Managing IT

- IT originally established to manage infrastructure (e.g. servers, network)
- IT was never staffed to keep pace
- IT was never supervised in a way that allowed them to grow
- Traditionally one position *under*-staffed
- Who is providing leadership?

# IT Staffing

- Traditional role has changed
- Need for more process orientation
- Understanding of IT governance
- Understanding of contracts and agreements
- Strategy/Vision is critical

- ✓ Learning to lead
- ✓ Learning to let go
- ✓ Learning to communicate

# Cyber-Security

- Weakest link
- Ransom-ware far more common
- Targets are not the most **valuable** but the most **vulnerable**
- Security officer
- More devices = more exposure

# Movement to the Cloud

- Movement to the Cloud is strategy, it deserves thought
- Data sovereignty
- Integrations
- Single-tenant/Multi-tenant
- Storage?

# Project Management

- Integrated versus stand-alone still an issue
- Procore has captured considerable marketshare
- PlanGrid acquired by AutoDesk
- Much more mobile and collaborative
- Not much integration yet with model

# Procure to Pay

- Contractors paying more attention to life-cycle
- Some moving to procurement platforms like Ariba and Coupa
- Some moving to invoice routing solutions like IntelliChief and DataServe
- Textura and GC Pay have significant presence
- Industry still struggles with POs and receiving tickets
- P-cards being implemented

# IoT

- Equipment Telematics
- Wearables
- Building sensors
- Systems not prepared

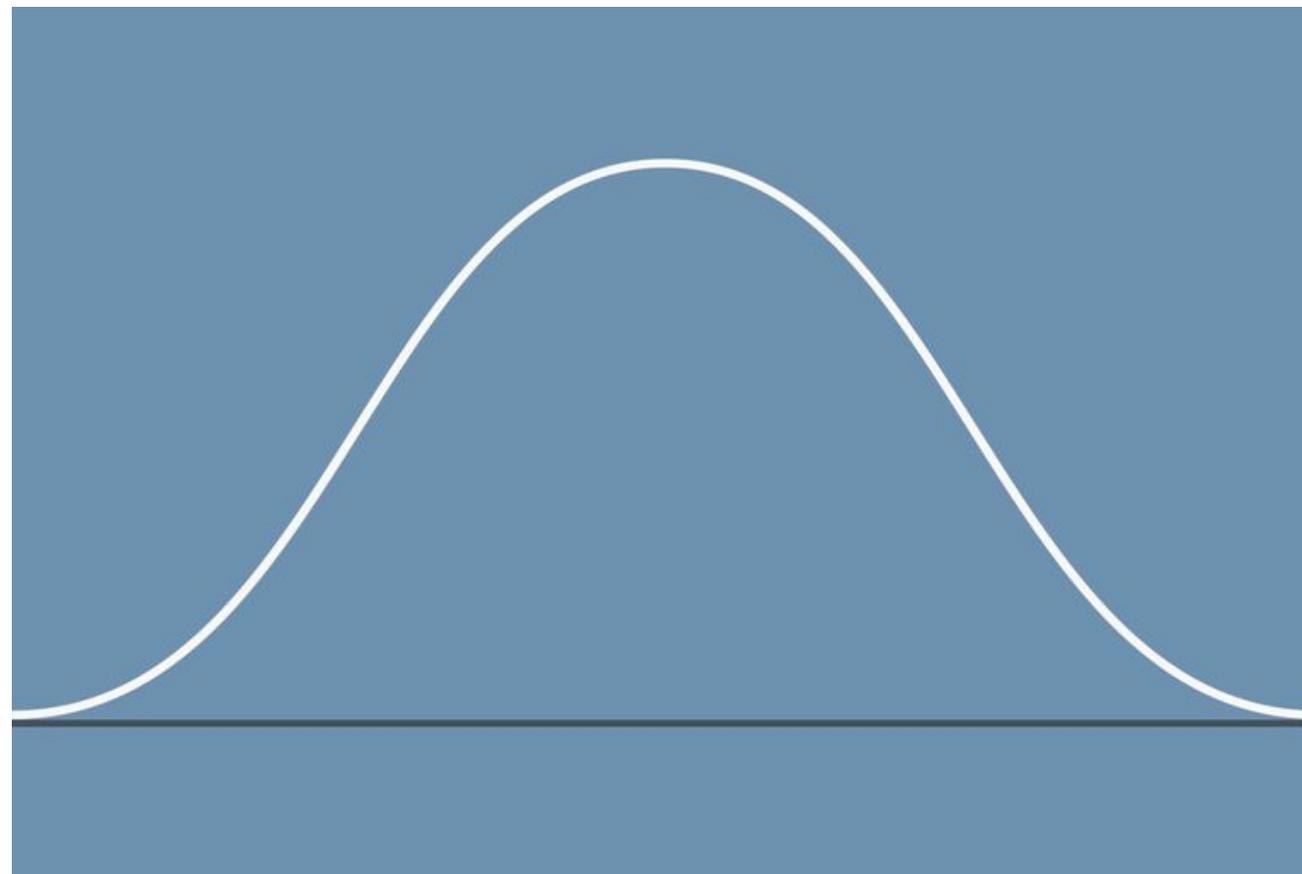

# Business Intelligence

- PowerBI and Tableau have captured considerable marketshare
- Vendors continue to build dashboards and graphics in their solutions
- Condition of data is paramount
- Data warehouse is good approach

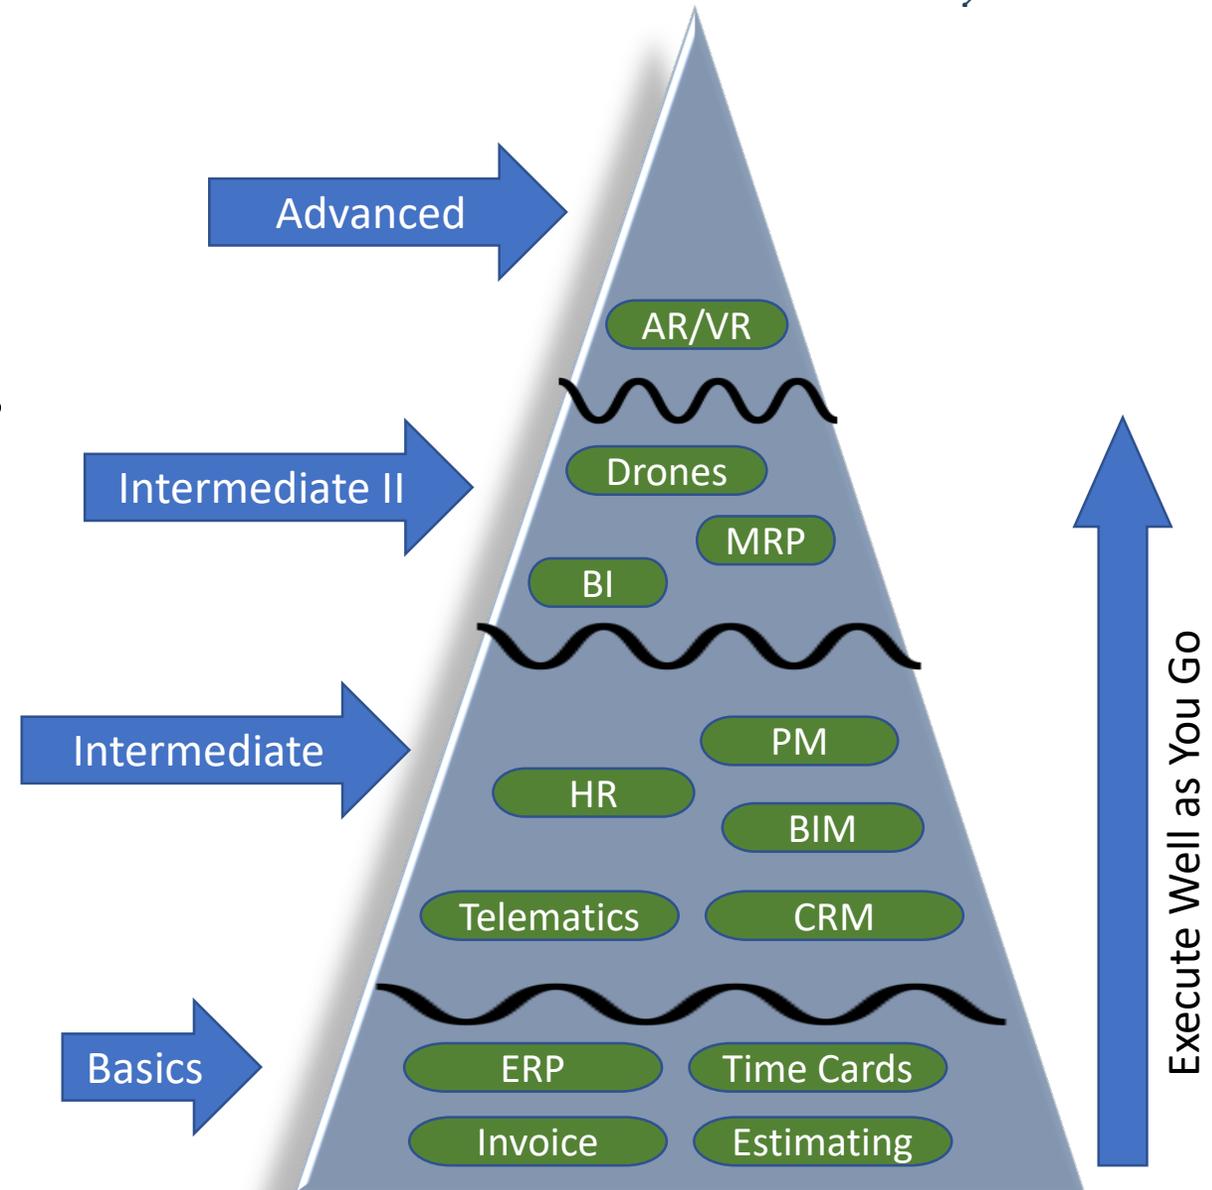

## Process Improvement/ Change Mgt.

- Think beyond the application (silo)
- Involve personnel from other departments
- Think outside the box
- Be suspicious of “this is the way we have always done it”
- Design for the front of the curve

# Priorities

- Cannot pursue all at once
- Should not pursue shiny objects without the fundamentals being in place
- Role of the business analyst

# Implementation
