

It is estimated that  
**14 LIVES ARE LOST TO SUICIDE  
PER DAY IN CONSTRUCTION,\***  
compared to less than two lives lost per day  
from all of OSHA's Fatal Four Hazards combined.  
**THIS MUST CHANGE**

## WHAT YOU CAN DO

### Resources for Suicide Prevention

[www.preventconstructionsuicide.com](http://www.preventconstructionsuicide.com)

Investments in mental health and suicide prevention result in more productive, happier employees.

### Donate

[www.preventconstructionsuicide.com](http://www.preventconstructionsuicide.com)

The CIASP is a 501(c)(3) organization and is funded through generous donations by construction industry supporters.
