# About eBacon

We help general contractors and subcontractors with certified payroll and fringe benefits.

---

## eBacon History

eBacon is a product division of TAG that is focused on certified payroll and fringe benefit management for the construction industry. Our in-house development team creates software solutions that combine time tracking, fringe management, payroll and certified reporting.

Founded in 2003 by Jack Biltis, TAG Employer Services is a cutting-edge Administrative Services Organization dedicated to simplifying payroll, workers' compensation, HR, benefits and related administrative tasks for small businesses. We build specialized technology based upon what small businesses want and need. This robust technology platform serves as the base for eBacon's line of products.

## Our Mission

We're dedicated to creating world-class software and business solutions that help companies thrive.
